(Vfpres.vn) Maybe you remember the article titled "In life there are many strange people" I wrote a few months ago on Vfpres. Indeed, I have been fortunate to know many "strange". But over pay Gang Gary , his brother in the U.S., nowhere is there!

End dating famous Russian billionaire, Leon Max, this irresistible boy led a French play about Vietnam. Yesterday met in a restaurant in Hanoi, talking through the French boy has traveled around the world, from Kim Jong Un met at North Korea, to make friends with Kazakh President ... Also try to check evidence by talking about a few locations "rarity" that I have ever come, as Rio de Janeiro or Machu Pichu, but guys have to answer rim walls, like "Rio Asian? Ipanima beautiful ... ", or " Machu Pichu, huh? On the road from Cusco, it was majestic mountains ... ". do I turn off the radio.

wonder I wonder, why would he go more, to know more about? And to find out the answer. Turns out, the world has formed a new lifestyle, where, and traveling as much exposure as the reason for living, who call themselves the global networker! Which friend Nicolas, and even my uncle, Gary Gang, which is a number. But last Monday 7, Cuong call from South Korea, we are going to show that on one hand Xinjiang, this new a model global networker real thing that even paying homage to Nicolas Gang and greet: Thomas Kramer .

From left: 3rd Gang uncle, Thomas 5th, 6th Nicolas! Shooting in South Korea 18/04/2013

Curious to know what the hand is worthy master of the Gang and Nicolas, I'm searching on the net for a while, then stunned to discover that, Thomas Kramer owns both an island in Miami , called Star Island!

Incredibly rich, and above all, each year tens of million spent on just for traveling around the world, creating a global network.

And the very best thing that I would recommend to the Vfers, that this hand a list of Wall Streets!

Thomas Kramer is known as the billionaire - real estate tycoon who has invested a lot of German venture capital services and had great success as build brand development in the South Miami, United States. He also is a well-known society figures and major philanthropist for humanitarian activities.

investment projects of Thomas spread from the United States, Germany, Pakistan. Initially he invested in securities and have extremely accurate predictions for the stock decline in 1987 and this gave him about 30 million U.S. dollars. Then he turns a real estate investment and development in East Germany via Miami, he has acquired many controversial projects South Pointe for \$ 45 million dollars and turn it into a very successful Star Island in Miami.

The red lines are locations of Thomas owner!

In Pakistan, he along with real estate tycoon Malik Riaz signed an agreement to build the island city Karachi, Pakistan with an investment of up to U.S. \$ 20 billion.

Thomas Kramer increasingly popular, especially after he bought the painting "Woman with armchair" painter Pablo Picasso's 1932 painting for \$ 2.86 million in 1992.

Gang World and pay back already with this Gary Thomas Kramer! I am so jealous! But okay, as long as keeping the promise Gang: Invite Thomas to play in Vietnam this July.

heard that Thomas had agreed to Xinjiang, and if this is true then I will be meeting him in July. Putting all business opportunities aside, it just was talking to Thomas was a great honor for me then! In humans this is how I can learn.

Hopefully, a few months I will be having one more "strange" anymore in the world!
